

"LORDY, LORDY, WE'RE TURNING FORTY!"

2010 is a year of celebration! A commemoration of forty years being co-owned by the states of Colorado and New Mexico through a unique partnership, which is a tribute to those who had the foresight to recognize the importance of saving this historic rail. In fact, it was 40 years ago when we became The Cumbres & Toltec Scenic Railroad. Prior to 1970, we were a portion of the original track built in 1880 by the Denver and Rio Grande Western Railroad and little has changed since. This 40th Anniversary year, we invite you to experience 'America's Highest and Longest Narrow Gauge Scenic Railroad' - a precious historic artifact of the American West.

At the Cumbres & Toltec Scenic Railroad, turning 40, life is just beginning!

Celebrate with Us!

MONDAY, AUGUST 30 • 40TH RE-ENACTMENT TRAIN

To give fans of the C&TS the opportunity to meet some of the original volunteers who made it all happen, and participate with them in the re-enactment train on August 30, 2010. Forty (40) seats have been reserved on the train for its sponsors.

These sponsor's tickets will be sold beginning *July 14th* for \$60 each (\$75 for caboose); each ticket purchased will include a copy of Greg Scholl's 1997 DVD 'First Train to Toltec',** and admission to the Bar-B-Q Dinner in Chama following arrival of the train.**

Since Lobato Trestle will likely NOT be repaired by August 30, as of July 26 plans for the Re-Enactment / Tribute Train are as follows:

Locomotive #487 will be painted up to stand in for #483 as she appeared in 1970.

The consist will approximate that of 1970, but with rider cars instead of boxcars and gons.

The train will depart from the Chama depot at 2:00 pm for a photo opportunity near the Chama wye.

The engine will back around the train, and pull the train tender-first through Chama east to Lobato Siding.

Due to trespass concerns of the adjacent landowner, passengers will NOT be allowed off the train at Lobato. The train will be re-configured as the 1970 work train, with the two gondolas and two boxcars ahead of the engine. The train will then proceed slowly westbound to the section of 'The Narrows' that is most easily seen from the highway.

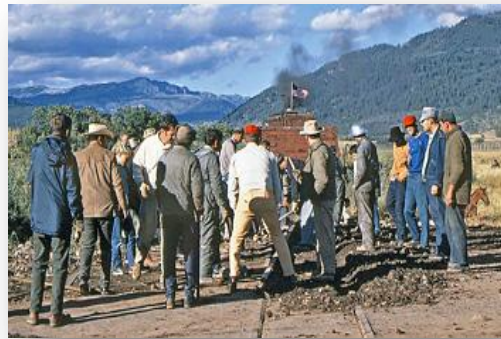

At 'The Narrows', several people will be allowed off the train to re-enact the clearing of the tracks in 1970. (**Photo 1 left, below**)

The 're-enactors' will re-board the train, which will then proceed to the Highway 17 crossing and pause there for brief ceremony.

A brief presentation will be held, in commemoration of the 1970 "rusty rail" event. (**The C&TS "Golden Spike" - Photo 2 right, below**)

The re-enactment train will then proceed into town, hopefully in time to avoid re-enactment of its way-too-late arrival in 1970 *...*

(The volunteers and crew missed the bar-b-que intended to welcome the train into Chama by at least two hours.) "
