

December 21, 2010

"In observance of the Christmas and New Year Holidays, the Cumbres & Toltec Scenic Railroad will close its depot and call center in Antonito, Colorado and Chama, New Mexico beginning December 24, 2010 through January 10, 2011. The Staff, Management and Railroad Commission join in expressing our heartfelt appreciation this holiday season to all of our friends and supporters who helped us work through the past year, the most challenging season in the history of the railroad. We wouldn't still be in operation were it not for you.

We are on target to have our damaged Lobato Trestle repaired in time for the start of the 2011 season and plan to be back bigger and better than ever. So, while the winter months are the quiet season for our mountain steam railroad, we will continue our efforts to make our comeback 2011 season one to remember.

We want to wish all of our friends and passengers a happy and safe holiday season.
